Profile

Fullstack Developer with 3 years of experience building responsive and scalable web applications. Skilled in React.js, Node.js, and MongoDB with a passion for writing clean, efficient code. Adept at problem-solving, collaborating with teams, and delivering projects that enhance user experience and business performance.

Work Experience

01/2022 – PRESENT KUSHTIA, BANGLADESH

Fullstack Developer Freelance

- Designed and developed responsive, fullstack web applications using **React.js**, **Node.js**, and **MongoDB**.
- Built and deployed **15+ client projects**, improving performance and scalability across multiple platforms.
- Created **RESTful APIs**, integrated **JWT authentication**, and optimized database queries for maximum efficiency.
- Improved overall **site loading time by 30%** through code optimization and caching techniques.
- Developed and deployed multiple web applications that **streamlined client operations** and **boosted user engagement by 30%**.
- Implemented **fully responsive designs** to ensure seamless mobile access, increasing **mobile traffic by 50%**.
- Collaborated closely with clients to **gather requirements** and provide **ongoing technical support**, achieving **70% repeat business** through strong client relationships.
- Integrated **third-party APIs and services** to extend functionality and improve overall user experience, resulting in higher user retention rates.

Work Experience

- Worked remotely with international clients, delivering **high-quality, scalable, and maintainable solutions** on time.
- Developed and launched several web applications for various clients, which enhanced their online presence and increased user engagement by an average of 30%. This showed how effective design and functionality can really boost a business.
- Implemented responsive design principles across all projects, ensuring that applications worked seamlessly on both desktop and mobile devices, which helped attract a wider audience and improve customer satisfaction significantly.
- Integrated third-party APIs to enhance application features, which provided clients with more robust functionality and streamlined their workflows, making their operations more efficient overall.
- Collaborated directly with clients to gather requirements and provide ongoing support, which fostered strong relationships and led to repeat business, demonstrating the importance of communication in meeting client needs.
